Our Mission

CSG partners with you and your community to develop political leaders in the systematic politics of layer cake federalism.

TRAINING SESSION

What We Do

As citizens, we often lack the political knowledge, skills, and ability to articulate our desire to make the policy changes necessary to restore our government to its proper role. Modern civics training teaches conventional political theories. The Center for Self Governance teaches unconventional, tried and tested techniques in Applied Civics proven to **Keep the Republic**. CSG training puts you, the citizen, in the driver's seat of self governance.

Structure of School Government

This is a two hour overview of school government structures in your state and the external influences reducing parental authority.
